## 2-Hydroxypropyl Methacrylate

### Specification Sheet

|                   |                                                                                                           |
|-------------------|-----------------------------------------------------------------------------------------------------------|
| Product           | : 2-Hydroxypropyl Methacrylate                                                                            |
| Code              | : 2916.14.00                                                                                              |
| Chemical Name     | : 2-Hydroxypropyl Methacrylate                                                                            |
| Synonyms          | : 2-Hydroxypropyl methacrylate HPMa Hydroxypropyl methacrylate Methacrylic acid,<br>2-hydroxypropyl ester |
| CAS No.           | : 27813-02-1                                                                                              |
| Molecular Formula | : C <sub>7</sub> H <sub>12</sub> O <sub>3</sub>                                                           |
| Molecular Weight  | : 144.17 g/mol                                                                                            |
| Boiling Point     | : 95-97 °C at 10 mmHg                                                                                     |
| Density           | : 1.06 g/cm <sup>3</sup>                                                                                  |
| Viscosity         | : 5-10 mPa·s                                                                                              |

#### No. CORE TESTS SPECIFICATION

- 1 Appearance : Clear, colorless liquid
- 2 Packaging : Available in iso-tanks, hdpe-drums, and jerry-can

#### SHELF LIFE

12 months
