## ELSURFAC™-PEPPG 206dMC (Polyethylene Glycol)

### Specification Sheet

|                   |                                                                   |
|-------------------|-------------------------------------------------------------------|
| Product           | : Polyethylene Glycol                                             |
| Code              | : 34042000                                                        |
| Chemical Name     | : Polyethylene Glycol                                             |
| Synonyms          | : PEG, Poly(ethylene glycol), Carbowax, Polyoxyethylene           |
| CAS No.           | : 68937-54-2                                                      |
| Molecular Formula | : (C <sub>2</sub> H <sub>4</sub> O) <sub>n</sub> H <sub>2</sub> O |
| Molecular Weight  | : Varies (typically 200-6000 g/mol depending on grade)            |
| Boiling Point     | : > 250 °C                                                        |
| Density           | : 1.12 g/cm <sup>3</sup>                                          |
| MeltingPoint      | : 50-60 °C                                                        |
| Viscosity         | : Varies with molecular weight                                    |

#### No. CORE TESTS SPECIFICATION

- 1 Appearance : Clear, viscous liquid or solid (depending on molecular weight)
- 2 Packaging : 25kg bags or drums

#### SHELF LIFE

At least 2 years when stored properly

The information and data contained herein are believed to be accurate but may not be all inclusive and should only be used as a guide. The information is furnished upon the condition that the person receiving it shall make his own determination of the suitability of the product for his particular use and on condition that they assume the risk of the use thereof.
