## Polyols

### Specification Sheet

|                   |                                                         |
|-------------------|---------------------------------------------------------|
| Product           | : Polyols                                               |
| Code              | : 3907.20                                               |
| Chemical Name     | : Polyols                                               |
| Synonyms          | : Polyether polyols Polyester polyols Polymeric polyols |
| CAS No.           | : Not applicable                                        |
| Molecular Formula | : C38H49N3O5                                            |
| Molecular Weight  | : 627.8 gm/mole                                         |
| Density           | : 1.0 - 1.2 g/cm <sup>3</sup>                           |
| Viscosity         | : Varies with type                                      |

#### No. CORE TESTS SPECIFICATION

- 1 Appearance : Viscous liquid
- 2 Packaging : Available in bulk containers

#### SHELF LIFE

24 months

The information and data contained herein are believed to be accurate but may not be all inclusive and should only be used as a guide. The information is furnished upon the condition that the person receiving it shall make his own determination of the suitability of the product for his particular use and on condition that they assume the risk of the use thereof.
